

# National Symposium on Medical Education

8<sup>th</sup> - 9<sup>th</sup> May 2020

**Theme: Changes in Assessment in the light of  
Competency Based Medical Education**

Organized by: Medical Education Unit, NEIGRIHMS  
Venue: Lecture Theatre I, Directors Administrative block

**North Eastern Indira Gandhi Regional Institute of Health &  
Medical Sciences, Shillong - 793018**

Welcome to the National Symposium on Medical Education at NEIGRIHMS, Shillong. The introduction of a competency based MBBS curriculum by MCI aim to raise standards of Medical Education in the country. Being patient centric, these competencies will go a long way towards excellence in patient care. But the crucial task of assessment of these competencies is a challenge to the providers of Health Education. Therefore, the theme for this symposium “Changes in Assessment in the light of Competency Based Medical Education” will focus on finding the right tool for assessment of the newly introduced competencies. The one and a half-day programme promises to feature distinguished faculty who have first-hand knowledge about the CBME Curriculum for MCI. We hope this symposium will help all the Faculty and Residents gain new insights into assessment and teaching learning methods and inspire your passion for teaching.

On behalf of the Organizing Committee, we look forward to interacting with you in picturesque Shillong.
