Sub: Assignments for MBBS Students Combined batch 6& 8th Semester

Dear Sir,

The Department of Orthopaedics has decided that the MBBS Students combined Batch 6th and 8th Semester are to prepare a short essay (within 1500 words) on the following topics

1. Fractures of hand and wrist
2. Bursitis (Non articular Rheumatism)
3. Bone tumor
4. Complications of Fractures
5. Amputation
6. Transient Synovits of Hip(limping child)
7. Shoulder Anatomy

Each student is to prepare a short essay on these topics individually in their own handwriting as an assignment and hard copies are to be submitted upon resumption of classes. Proper diagram may be incorporated with the body of the text.

A quiz will be conducted on the above topics after their joining and marks obtained will be forwarded for internal assessment marks
