Sl. No	Name of the Student	Course	Department		Title of the Thesis		Year/Batch	Year of Submission
	Dr. Swapan Kumar Saha	DM/MCH	Cardiology		Prosnostic Significance of Serum Uric Acid in Patients with Acute Coronary Syndrome Undergoing Coronary Angiography	1-54		2015
				1	Effect of Ranolazine in Patients with Chest Pain and Normal Coronaries	55-103		
					Weight Monitoring as an Indicator of Major Cardiovascular Eventsin Patients with Heart Failure	104-150	2012	
				2	Evaluation of Predicators of Outcome in Patients with Peripatum Cardiomyopathy	1-44		
1					Assessment of Diastolic Function by Echocardiography in Patients with Excellent Effort Tolerance in TMT (>9METS)	45-84		
					Coronary Artery Ectasia: Pathophysiological and Clinical Significance	1-19		
					Hypertension in Pregnancy - An Emerging Risk of of Subsequent Cardiovascular Diasease	20-38		
					Angiotensin Receptor Blockers: Cardiovascular Protection Beyong Blood Pressure Control	39-56		
					Sudden Cardiac Death - An Overview	57-80		
					Association of Serum Parathyroid Hormone in Patients with Stable Coronary Artery Disease	1-39		
				1	Prognostic Value of Serum Ctstatin C in Patients with Acute Coronary Syndrome	40-87		

DOCTORAL THESIS OF DM/MCH, NEIGRIHMS

Sl. No	Name of the Student	Course	Department		Title of the Thesis		Year/Batch	Year of Submission
					The Effect of Tirofiban on Early and Intermediate Outcome in Late Presentationof Acute Coronary Syndrome Patients	88-141		
	Dr. Pravin Kumar Shrivastava	DM/MCH	Cardiology	2	Effects of Chronic Pulmonary Hypertension on Diastolic Annular Tissue Velocity	1-48	2012	2015
2					The Ratio of Early Diasgnostic Peak Velocities at Tricuspid and Mitral Annulus as the Prognostic Predictor in Heart Failure with Preserved Ejection Fraction Patient	48-88		
					reserved Ejection Fraction Patient Giomakers in Acute Coronary Syndrome Past resent and Future Trachycardia- Induced Cardiomyopathy 26-54			
			Present and Future 1-25					
				3 Complet and Left Formation	Complex Left Atrial Appendage Morphology and Left Atrial Appendage Thrombus Formation in Patients with Atrial Function	55-64		
					Chronic Constrictive Pericarditis	65-99		
				1	Usefulness of Coronary CT Angiography in Patients with Suspected Coronary Artery Disease and a Positve Exercise Test	1-47		
					Diastolic Function Parameters in the Prediction of Left Atrial Thrombus in Patients of Acute Coronary Symdrome	48-90]	
					Assessment of Neutrophisls/Lymphocytes Ratio in Suspected Patients of Acute Coronary Syndrome	1-54		

Sl. No	Name of the Student	Course	Department		Title of the Thesis		Year/Batch	Year of Submission
3	Dr. Dhanjit Nath	DM/MCH	Cardiology	2	The Impact of Low Level of High-Dedensity lipoprotein Cholesterol on Clinical Outcomes in Acute Coronary Syndrome	55-84	2013	2016
					Inflammatory Markers as Predictors of Outcome in Peripartum Cardiomyopathy	85-124		
					Spontaneous Coronary Artery Dissection: A review of the Aetiology, Diagnosis and Available Treatment Options	1-25		
				3	Takayasu Arteritis: A Systematic Review	26-59		
					Myocarditis: Current Trends in Diagnostic and Treatment	60-86		
					Role of Statins in Chronic Kidney Disease	87-96		
					To Study Thyroid Hormone Profile In Acute Coronary Syndrome Patients	1-47		
				1	Relationship Between Platelet Indices & Spontaneous Echo Contrast (Sec) In Patients with Mitrial Stenosis (ms)	48-83		
	Dr. Swapan Kumar Jha	DM/MCH	Cardiology	2	To Study Outcome of Isolated Coronary Estasia	1-39	_	
					Correlation Between Microalbuminuria and Severity of Coronary Artery Disease	40-80 81-119		
4					Electrocardiographic Changes During Tobacco Chewing		2014	2017
					Poor Response to Clopidogrel: Current and Future Options for its Management	1-33		
					PAH: Current Treatment's Success and Failures	34-86		
				5	Hydrid Coronary Revascularization. "Best of Worlds"	87-102		
					Exercise & Physical Activity in Management of Cardiovascular Disease	103-133		

Sl. No	Name of the Student	Course	Department		Title of the Thesis	Year/Batch	Year of Submission
5	Dr. Ashish Hota	DM/MCH		2	Clinical Profile, Risk Factors and Outcome of Patients Presenting with ST – Segment Elevation Myocardial Infection in a Tertiary Centre: A Prospective Study Incidence, Predictors and Outcome of Perioperative Myocardial Injury in Patients Undergoing Non Cardiac Surgery in a Tertiary Centre Care Resting Heart Rate and Body Mass Index as Predictors of Severe Coronary Atherosclerosis Burden by Syntax Score in Patient with Stables Angina Prectoris Narrow Complex Tachycardia: An Overview of Non- Invasive Approach , Interpretation and Management An overview of Secondary Mitral Regurgitation: Pathophysiology, Proportionality and Prognosis Spontaneous Coronary Artery Dissection: An	2017	2020
			Cardiology	3	Overview The Role of Optical Coherence Tomography in Coronary Invention Log Book	 _	
					To Study the Risk Factor Profile and Major Adverse Cardiac Events in Non- –ST- Evaluation Myocardial Infraction (NSTEM1) Acute Coronary Syndrome Patients in a Tertiary Care Centre in North East India : A Prospective Study To Study the Diagnostic Importance of Platelet Distribution Width (PDW) in Acute Coronary Syndrome		

Sl. No	Name of the Student	Course	Department		Title of the Thesis	Year/Batch	Year of Submission
6	Dr Tejvir Singh	DM/MCH	Cardiology		To Study the Prevalence and Spectrum of Thyroid Disorders with Special Reference to Subclinical Thyroid Disorder in Patients with Non-Rheumatic Atrial Fibrillation	2017	2020
					Low Gradient Aortic Stenosis: Current Status and Future Prospects SGLT-2 Inhibitors in Heart Failure: A promising Novel Therapy		
				2	Permanent his Bundle Pacint: An Emerging Technique for Physiological Ventricular Pacing		
				3	Left Atrial Appendage Occulusion for Stroke Prevention in Atrial Fibrillation : A Contemporary Review Log Book
