

e-TENDER AMENDMENT

Reference Tender Notice No: NEIGR/S&P/01/03/2017-2018; Dated: 05.03.2018 for tentative requirement of stores /services for the Institute

The following amendment /addendum are hereby being considered against the technical specification of the following system:

Tender Enquiry No: NEIGR/S&P/OT/E -60/2017 -18 (Operation Theatre Tables):

Item no 1: Operation Theatre (OT) Table (Electro Hydraulic):

- Point: "Height 550 -1050 mm, trendelenburg / reverse trendelenburg = -35 to +35degree, back section = -45 to + 90 degree, side tilt = +/- 25degree, leg section = - 90 to 80 degree, detachable. Head rest = -45 to + 45 degree, manually, detachable. Facility perineal unit."

May be read as

"Height 650-700 mm to 1100-1150mm or better,trendelenburg / reverse trendelenburg = -30 to +30 degree or better , back section = -45 to + 90 degree, side tilt = +/- 25 degree or more,motorized leg section = - 90 to 80 degree, detachable. Head rest = -45 to + 45 degree, manually, detachable. Facility perineal unit."

- Point: "The safe working load capacity of table should not be less than 400kg"

May be read as

"The safe working load capacity of table should not be less than 400kg Idle/home position and 250kg or more in all positions in reverse mode."

- Point: "The table top has a longitudinal slide facility of minimum 300 mm for better access & maximum scan area of C-arm."

May be read as

"The table top has amotorised longitudinal slide facility of minimum 300 mm for better access & maximum scan area of C-arm."

Points to be added in Technical Specification

- The OT Table should be fully ready for compatibility with future modular OT integration & the necessary license /software has to be quote optionally.
- The OT Table must have USB/RS 232/RJ45 port should be available for the purpose of easy diagnostic, service & for future integration.

Item no: 2 Operation Theatre (OT) Table (Electro Mechanical):-

Description of Function:-

- May be read as "Operating tables provide an elevated surface that supports the patient's body during surgical procedures, stabilizing the patient's position and providing optimal exposure of the surgical field & should be 100 % oil free."

Technical Specifications:

- Point: "Height 550 -1050 mm, trendelenburg / reverse trendelenburg = -35 to +35degree, back section = -45 to + 90 degree, side tilt = +/- 25degree, leg section = - 90 to 80 degree, detachable. Head rest = -45 to + 45 degree, manually, detachable. Facility perineal unit."

may be read as

"Height 650-700 mm to 1100-1150mm or better,trendelenburg / reverse trendelenburg = -35 to +35degree, back section = -45 to + 90 degree, side tilt = +/- 18 degree or more , leg section = - 90 to 80 degree, detachable. Head rest = -45 to + 45 degree, manually, detachable. Facility perineal unit."

- Point: "The safe working load capacity of table should not be less than 400kg"

may be read as

"The safe working load capacity of table should not be less than 450kg Idle/home position and 300kg or more in all positions in reverse mode."

- Point: "The table top has a longitudinal slide facility of minimum 300 mm for better access & maximum scan area of C-arm."

may be read as

"The table top has amotorized longitudinal slide facility of minimum 250 mm or more for better access & maximum scan area of C-arm."

Points to be added in Technical Specification

- The OT Table should be fully ready for compatibility with future modular OT integration & the necessary license /software has to be quote optionally.
- The OT Table must have USB/RS 232/RJ45 port should be available for the purpose of easy diagnostic, service & for future integration.

All other terms and conditions remains the same.
