1. INTRODUCTION

The **North Eastern Indira Gandhi Regional Institute of Health and Medical Sciences (NEIGRIHMS)**, Shillong is an autonomous Institution established by the Ministry of Health & Family Welfare, Government of India in 1987 under the Meghalaya Societies Registration Act 1983. The Institute has been projected on a modular system on four pillars of health programmes in our country so as to develop:-

- Medical Education and Human Resource Development by creating an Institution of Excellence for Medical and Nursing Education to generate Health manpower in Specialty, Super specialty in the field of Medicine, Nursing and allied profession.
- Excellence in Patient Care Services with State of the Art Technology.
- Establish an open Referral Hospital to provide Specialized Health Care to the people of North East India.
- Central Research organization with Primary and Advanced Research Facilities.
- The Institute shall look after the Regional needs and collaborate with other National and International agencies, Health Care Consultancy service in Regional and Central Health Schemes.
- The Institute has the mandate to take up the responsibility of an Apex Co-ordination Centre to guide the Health Care programmes of North Eastern States, North Eastern Council and also to co-ordinate with the Central Government plans and programmes of Health Care. Establishment of the College of Nursing in NEIGRIHMS is a step in this direction.

2. MISSION

To develop a center of excellence in the field of Nursing Education, Research and Patient Care so as to impart quality education leading to Bachelor's/Master's and Doctoral degree in Nursing for an internationally accredited Nursing professionals.

3. PHILOSOPHY OF THE COLLEGE

- i) The College believes that B.Sc. Nursing program will train the graduates who will be able to render quality nursing care which is scientifically sound and evidence based, in the health care practice at the Institutional level and Community Out Reach programmes.
- ii) The College believes in training students for their all-round development as an individual, a citizen and a Nursing professional, who will take up leadership positions and be capable of providing quality service in different health care setting and do innovative and pioneering work in the field of Nursing practice and education.
- iii) The College recognizes that the nursing profession is influenced by advances in Medical science and technology in keeping pace with the development of other health professions. The College therefore prepares a program in nursing education that complements with the changing needs of the profession, the community and the country at large.

4. PURPOSE

The B.Sc. Nursing is a Baccalaureate Degree Program of 8 (eight) Semesters, leading to the award of a Degree of Bachelor of Science in Nursing. The aims of the undergraduate program are to:

- i) Produce knowledgeable competent nurses and midwives with clear critical thinking skills who are caring, motivated, assertive and well disciplined responding to the changing needs of profession, healthcare delivery system and society.
- ii) Prepare them to assume responsibilities as professional, competent nurses and midwives in providing promotive, preventive, curative and rehabilitative health care services in any health care setting.

- iii) Prepare nurses and midwives who can make independent decisions in nursing situations within the scope of practice, protect the rights of individuals and groups and conduct research in areas of nursing practice and apply evidence-based practice.
- iv) Prepare them to assume role of practitioner, teacher, supervisor and manager in all healthcare settings.

5. OBJECTIVE

On completion of the B.Sc. Nursing program, the B.Sc. Nursing graduates will be able to:

- i) Utilize critical thinking to synthesize knowledge derived from physical, biological, behavioural sciences, and humanities, in the practice of professional nursing and midwifery.
- ii) Practice professional nursing and midwifery competently and safely in diverse settings, utilizing caring, critical thinking and therapeutic nursing interventions with individuals, families, populations and communities at any developmental stage and with varied lived health experiences.
- iii) Provide promotive, preventive and restorative health services in line with national health policies and programs.
- iv) Integrate professional caring into practice decisions that encompass values, ethical, and moral and legal aspects of nursing.
- v) Respect the dignity, worth, and uniqueness of self and others.
- vi) Apply concepts of leadership, autonomy and management to the practice of nursing and midwifery to enhance quality and safety in health care.
- vii) Utilize the latest knowledge and skills related to information and technology to enhance patient outcomes.
- viii) Communicate effectively with patients, peers, and all health care providers.
- ix) Utilize the requisite knowledge, skills and technologies to practice independently and collaboratively with all health professionals applying the principles of safety and quality improvement.
- x) Integrate research findings and nursing theory in decision making in evidence-based practice.
- xi) Accept responsibility and accountability for the effectiveness of one's own nursing and midwifery practice and professional growth as a learner, clinician and leader.
- xii) Participate in the advancement of profession to improve healthcare for the betterment of the global society.
- xiii) To inculcate a sense of dedication and devotion towards their profession.
