

List of Stores /Items on consignment basis

Sl. No.	Description of Stores /Items	Unit	Company /Manufacturer	Remarks
1.01	Percutaneous Nephrolithotripsy (PCNL) drape - Material: Water repellent fabric polypropylene SMMMS Sheet size: 100x140 Incision area: 20x25cm Should come with drain pouch	1.00		
1.02	Transurethral Resection of Prostate (TURP) Drape - Material: Non-woven spun lace fabric water repellent polypropylene Sheet size: 150x160 Aperture: 8cm diameter Should come with drainage funnel and filtering with legging	1.00		
1.03	Guide wire -Material: Hydrophilic coating; Type: Straight tip; Size: 0.025"; Length: 150cm	1.00		
1.04	Guide wire -Material: Hydrophilic coating; Type: Straight tip; Size: 0.035"; Length: 150cm	1.00		
1.05	Guide wire -Material: Hydrophilic coating; Type: Straight tip; Size: 0.038"; Length: 150cm	1.00		
1.06	Guide wire -Material: Hydrophilic coating; Type: Angled tip; Size: 0.025"; Length: 150cm	1.00		
1.07	Guide wire -Material: Hydrophilic coating; Type: Angled tip; Size: 0.035"; Length: 150cm	1.00		
1.08	Guide wire -Material: Hydrophilic coating; Type: Angled tip; Size: 0.038"; Length: 150cm	1.00		
1.09	Double J Stent -Material: Polyurethane material, Radiopaque with low encrustation tendency ;Type: Both end open with markers Size: 5Fr Should be compatible with 0.035" guide wire	1.00		
1.1	Double J Stent -Material: Polyurethane material, Radiopaque with low encrustation tendency Type: Both end open with markers Size: 6Fr Should be compatible with 0.035" guide wire	1.00		
1.11	Percutaneous nephrolithotripsy (PCNL) puncture needles Material: IP needle with Graduation marks facilitating accurate depth placement with echogenic tip for enhancing visualization under ultrasound and radio sensitive marker. Type: Two part trocar needle; Size: 18G; Length: 20cm Should be compatible with 0.035" guide wire	1.00		
1.12	Transurethral resection (TUR) Set Material: Non-toxic, nonm-irritating, transparent medical PVC sheet. Y shaped connector facilitates alternative changes solution Type: Disposable Length: 36in. (91.4cm)	1.00		
1.13	Stone Basket Material: Stainless steel tipless basket with polyimide sheath highly flexible, kink resistant and durable with atraumatic tip. Size: 2.2Fr Length: 120cm Should come with ergonomic handle, slidable, manageable with one hand	1.00		
1.14	Renal Dilator Set -Material: Radiopaque PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 6 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.15	Renal Dilator Set -Material: Radiopaque PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 7 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.16	Renal Dilator Set -Material: Radiopaque PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 8 Fr Length: Dilator 30cm sheath 16cm	1.00		

1.17	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 9 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.18	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 10 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.19	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 11 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.2	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 12 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.21	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size:13 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.22	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 14 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.23	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 15 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.24	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 16 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.25	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 17 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.26	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 18 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.27	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 19 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.28	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 20 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.29	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 21 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.3	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 22 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.31	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 23 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.32	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size:24 Fr Length: Dilator 30cm sheath 16cm	1.00		

1.33	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 25 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.34	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size:26 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.35	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 27 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.36	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 28 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.37	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 29 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.38	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 30 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.39	Ureteric Balloon Dilators Material: Superior abrasion and puncture resistance. Should come with tow radiopaque markers and with a pre attached stop cock. Balloon width: 5-10mm Balloon length: 20mm Balloon inflation: 20cc Dilators length: 75cms Shaft size: 4.8Fr Compatible with 0.035" guide wire	1.00		
1.4	Ureteric Balloon Dilators Material: Superior abrasion and puncture resistance. Should come with tow radiopaque markers and with a pre attached stop cock. Balloon width: 5-10mm Balloon length: 40mm Balloon inflation: 20cc Dilators length: 75cms Shaft size: 4.8Fr Compatible with 0.035" guide wire	1.00		
1.41	Ureteric Balloon Dilators Material: Superior abrasion and puncture resistance. Should come with tow radiopaque markers and with a pre attached stop cock. Balloon width: 5-10mm Balloon length: 60mm Balloon inflation: 20ccDilators length: 75cms Shaft size: 4.8Fr Compatible with 0.035" guide wire	1.00		
1.42	Malecot Nephrostomy Catheter Material:(i) Latex Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 12fr Length: 30cm Compatible with 0.035" guide wire	1.00		
1.43	Malecot Nephrostomy Catheter Material:(i) Latex Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 14Fr Length: 30cm Compatible with 0.035" guide wire	1.00		
1.44	Malecot Nephrostomy Catheter Material:(i) Latex Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 16Fr Length: 30cm Compatible with 0.035" guide wire	1.00		
1.45	Malecot Nephrostomy Catheter Material:(i) Latex Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 20Fr Length: 30cm Compatible with 0.035" guide wire	1.00		
1.46	Malecot Nephrostomy Catheter Material:(i) Latex Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 24Fr Length: 30cm Compatible with 0.035" guide wire	1.00		
1.47	Malecot Nephrostomy Catheter Material (ii) Silicone Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 12Fr Length: 30cm Compatible with 0.035" guide wire	1.00		

1.48	Malecot Nephrostomy Catheter Material (ii) Silicone include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Length: 30cm Size: 14Fr Compatible with 0.035" guide wire	Should	1.00		
1.49	Malecot Nephrostomy Catheter Material (ii) Silicone include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Length: 30cm Size: 16Fr Compatible with 0.035" guide wire	Should	1.00		
1.5	Malecot Nephrostomy Catheter Material (ii) Silicone include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Length: 30cm Size: 20Fr Compatible with 0.035" guide wire	Should	1.00		
1.51	Malecot Nephrostomy Catheter Material (ii) Silicone include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Length: 30cm Size: 24Fr Compatible with 0.035" guide wire	Should	1.00		
1.52	Ureteral Catheter Material: Single lumen ureteral catheter designed with tapered tip to aid atraumatic access for delivery of contrast or a guide wire Size: 3Fr with 0.035" guide wire Type: (i) open end Compatible		1.00		
1.53	Ureteral Catheter Material: Single lumen ureteral catheter designed with tapered tip to aid atraumatic access for delivery of contrast or a guide wire Size: 4Fr 0.035" guide wire Type: (i) open end Compatible with		1.00		
1.54	Ureteral Catheter Material: Single lumen ureteral catheter designed with tapered tip to aid atraumatic access for delivery of contrast or a guide wire Size: 5Fr guide wire Type: (i) open end Compatible with 0.035"		1.00		
1.55	Ureteral Catheter Material: Single lumen ureteral catheter designed with tapered tip to aid atraumatic access for delivery of contrast or a guide wire Size: 3Fr Compatible with 0.035" guide wire Type: (ii) close end		1.00		
1.56	Ureteral Catheter Material: Single lumen ureteral catheter designed with tapered tip to aid atraumatic access for delivery of contrast or a guide wire Size: 4Fr guide wire Type: (ii) close end Compatible with 0.035"		1.00		
1.57	Ureteral Catheter Material: Single lumen ureteral catheter designed with tapered tip to aid atraumatic access for delivery of contrast or a guide wire Size: 5Fr 0.035" guide wire Type: (ii) close end Compatible with		1.00		
1.58	Plastic Toomey Syringe Material Type: Thermoplastic elastomer gasket made of non-toxic, non-irritant Medical grade pasties specially designed syringe suitable for TURP procedure and bladder irrigation compatible with Storz, Wolf, cystoscope & resectoscope. Tapered nozal for safe and easy connection to universal funnel shape connector. Size: 50ml		1.00		
1.59	Plastic Toomey Syringe Material Type: Thermoplastic elastomer gasket made of non-toxic, non-irritant Medical grade pasties specially designed syringe suitable for TURP procedure and bladder irrigation compatible with Storz, Wolf, cystoscope & resectoscope. Tapered nozal for safe and easy connection to universal funnel shape connector. Size: 100ml		1.00		
1.6	Hem O Lock clip Material: Non-absorbable polymer ligation clip, radiopaque and non-conductive. Size: Medium, medium-large, large and extra large		1.00		

1.61	Trucut Biopsy Instrument Material: Metal with plastic handle and trigger Type: gun and needle Size: 18G Length: 25cm	1.00		
1.62	Transurethral Resection of Prostate (TURP) Drape - Material: Non-woven spun lace fabric water repellent polypropylene Sheet size: 150x160 Aperture: 8cm diameter Should come with drainage funnel and filtering with legging	1.00		
1.63	Guide wire -Material: Hydrophilic coating Type: Straight tip Size: 0.025" Length: 150cm	1.00		
1.64	Guide wire -Material: Hydrophilic coating Type: Straight tip Size: 0.035" Length: 150cm	1.00		
1.65	Guide wire -Material: Hydrophilic coating Type: Straight tip Size: 0.038" Length: 150cm	1.00		
1.66	Guide wire -Material: Hydrophilic coating Type: Angled tip Size: 0.025" Length: 150cm	1.00		
1.67	Guide wire -Material: Hydrophilic coating Type: Angled tip Size: 0.035" Length: 150cm	1.00		
1.68	Guide wire -Material: Hydrophilic coating Type: Angled tip Size: 0.038" Length: 150cm	1.00		
1.69	Double J Stent -Material: Polyurethane material, Radiopaque with low encrustation tendency Type: Both end open with markers Size: 5Fr Should be compatible with 0.035" guide wire	1.00		
1.7	Double J Stent -Material: Polyurethane material, Radiopaque with low encrustation tendency Type: Both end open with markers Size: 6Fr Should be compatible with 0.035" guide wire	1.00		
1.71	Percutaneous nephrolithotripsy (PCNL) puncture needles Material: IP needle with Graduation marks facilitating accurate depth placement with echogenic tip for enhancing visualization under ultrasound and radio sensitive marker. Type: Two part trocar needle Size: 18G; Length: 20cm Should be compatible with 0.035" guide wire	1.00		
1.72	Transurethral resection (TUR) Set Material: Non-toxic, non-irritating, transparent medical PVC sheet. Y shaped connector facilitates alternative changes solution Type: Disposable Length: 36in. (91.4cm)	1.00		
1.73	Stone Basket Material: Stainless steel tipless basket with polyimide sheath highly flexible, kink resistant and durable with atraumatic tip. Size: 2.2Fr Length: 120cm Should come with ergonomic handle, slidable, manageable with one hand	1.00		
1.74	Renal Dilator Set -Material: Radiopaque PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 6 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.75	Renal Dilator Set -Material: Radiopaque PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 7 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.76	Renal Dilator Set -Material: Radiopaque PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 8 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.77	Renal Dilator Set -Material: Radiopaque PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 9 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.78	Renal Dilator Set -Material: Radiopaque PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 10 Fr Length: Dilator 30cm sheath 16cm	1.00		

1.98	Renal Dilator Set -Material: Radiopazue PVC dilators and PTFE sheaths kink resistant material Type: Amplatz-type Size: 30 Fr Length: Dilator 30cm sheath 16cm	1.00		
1.99	Ureteric Balloon Dilators Material: Superior abrasion and puncture resistance. Should come with tow radiopaque markers and with a pre attached stop cock. Balloon width: 5-10mm Balloon length: 20m Balloon inflation: 20cc Dilators length: 75cms Shaft size: 4.8Fr Compatible with 0.035" guide wire	1.00		
2	Ureteric Balloon Dilators Material: Superior abrasion and puncture resistance. Should come with tow radiopaque markers and with a pre attached stop cock. Balloon width: 5-10mm Balloon length: 40mm Balloon inflation: 20cc Dilators length: 75cms Shaft size: 4.8Fr Compatible with 0.035" guide wire	1.00		
2.01	Ureteric Balloon Dilators Material: Superior abrasion and puncture resistance. Should come with tow radiopaque markers and with a pre attached stop cock. Balloon width: 5-10mm Balloon length: 60mm Balloon inflation: 20cc Dilators length: 75cms Shaft size: 4.8F Compatible with 0.035" guide wire	1.00		
2.02	Malecot Nephrostomy Catheter Material:(i) Latex Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 12fr Length: 30cm Compatible with 0.035" guide wire	1.00		
2.03	Malecot Nephrostomy Catheter Material:(i) Latex Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 14Fr Length: 30cm Compatible with 0.035" guide wire	1.00		
2.04	Malecot Nephrostomy Catheter Material:(i) Latex Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 16Fr Length: 30cm Compatible with 0.035" guide wire	1.00		
2.05	Malecot Nephrostomy Catheter Material:(i) Latex Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 20Fr Length: 30cm Compatible with 0.035" guide wire	1.00		
2.06	Malecot Nephrostomy Catheter Material:(i) Latex Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 24Fr Length: 30cm Compatible with 0.035" guide wire	1.00		
2.07	Malecot Nephrostomy Catheter Material (ii) Silicone Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 12Fr Length: 30cm Compatible with 0.035" guide wire	1.00		
2.08	Malecot Nephrostomy Catheter Material (ii) Silicone Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 14Fr Length: 30cm Compatible with 0.035" guide wire	1.00		
2.09	Malecot Nephrostomy Catheter Material (ii) Silicone Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 16Fr Length: 30cm Compatible with 0.035" guide wire	1.00		
2.1	Malecot Nephrostomy Catheter Material (ii) Silicone Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: Length: 30cm Compatible with 0.035" guide wire	1.00		
2.11	Malecot Nephrostomy Catheter Material (ii) Silicone Should include tow stylets - one for placement and one for post procedure removal and should include drainage bag connecting tube. Size: 24Fr Length: 30cm Compatible with 0.035" guide wire	1.00		
2.12	Ureteral Catheter Material: Single lumen urteral catheter designed with tapered tip to aid atraumatic access for delivery of contrast or a guide wire Type: (i) open end Size: 3Fr Compatible with 0.035" guide wire	1.00		
2.13	Ureteral Catheter Material: Single lumen urteral catheter designed with tapered tip to aid atraumatic access for delivery of contrast or a guide wire Type: (i) open end Size: 4Fr Compatible with 0.035" guide wire	1.00		

2.14	Ureteral Catheter Material: Single lumen ureteral catheter designed with tapered tip to aid atraumatic access for delivery of contrast or a guide wire Size: 5Fr Type: (i) open end Compatible with 0.035" guide wire	1.00		
2.15	Ureteral Catheter Material: Single lumen ureteral catheter designed with tapered tip to aid atraumatic access for delivery of contrast or a guide wire Size: 3Fr Type: (ii) close end Compatible with 0.035" guide wire	1.00		
2.16	Ureteral Catheter Material: Single lumen ureteral catheter designed with tapered tip to aid atraumatic access for delivery of contrast or a guide wire Size: 4Fr Type: (ii) close end Compatible with 0.035" guide wire	1.00		
2.17	Ureteral Catheter Material: Single lumen ureteral catheter designed with tapered tip to aid atraumatic access for delivery of contrast or a guide wire Size: 5Fr Type: (ii) close end Compatible with 0.035" guide wire	1.00		
2.18	Plastic Toomey Syringe Material Type: Thermoplastic elastomer gasket made of non-toxic, non-irritant Medical grade pasties specially designed syringe suitable for TURP procedure and bladder irrigation compatible with Storz, Wolf, cystoscope & resectoscope. Tapered nozzle for safe and easy connection to universal funnel shape connector. Size: 50ml	1.00		
2.19	Plastic Toomey Syringe Material Type: Thermoplastic elastomer gasket made of non-toxic, non-irritant Medical grade pasties specially designed syringe suitable for TURP procedure and bladder irrigation compatible with Storz, Wolf, cystoscope & resectoscope. Tapered nozzle for safe and easy connection to universal funnel shape connector. Size: 100ml	1.00		
2.2	Hem O Lock clip Material: Non-absorbable polymer ligation clip, radiopaque and non-conductive. Size: Medium, medium-large, large and extra large	1.00		
2.21	Trucut Biopsy Instrument Material: Metal with plastic handle and trigger Type: gun and needle Size: 18G Length: 25cm	1.00
