24.2 Arithmetical errors will be rectified on the following basis. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected. If there is a discrepancy between words and figures, the amount in words will prevail. If the supplier does not accept the correction of errors, its bid will be rejected and its bid security may be forfeited.

24.3 The Purchaser may waive any minor informality or non-conformity or irregularity in a bid, which does not constitute a material deviation, provided such a waiver, does not prejudice or affect the relative ranking of any Bidder.

24.4 Prior to the detailed evaluation, pursuant to ITB Clause 26, the Purchaser will determine the substantial responsiveness of each bid to the bidding documents. For purposes of these Clauses, a substantially responsive bid is one which conforms to all the terms and conditions of the bidding documents without material deviations. Deviations from or objections or reservations to critical provisions such as those EMD/Bid security, General Conditions of Contract, Special Conditions of Contract and Taxes & Duties will be deemed to be a material deviation. The Purchaser's determination of a bid's responsiveness is to be based on the contents of the bid itself without recourse to extrinsic evidence.

## **25. Non responsive Bid**

24.5 If a bid is not substantially responsive, it will be rejected by the Purchaser and may not subsequently be made responsive by the Bidder by correction of the non-conformity.

**26. Evaluation and Comparison of Bid**

- 26.1 The purchaser will evaluate and compare the bid previously determined to be substantially responsive, pursuant to ITB clause 24 for each schedule separately. Bidders are allowed the option to bid for any one or more schedules or all schedules and to offer discounts for combined schedules. These discounts will be taken into account in the evaluation of the bid so as to determine the bid or combination of bid offering the lowest evaluated cost for the purchaser in deciding award(s) for each schedule.
- 26.2 The Purchaser's evaluation of a bid will exclude and not take into account in the case of goods manufactured in India or goods of foreign origin already located in India, sales and other similar taxes, which will be payable on the goods if a contract is awarded to the Bidder.
- 26.3 Bid evaluation will not take into account any allowance for price adjustment during the period of execution of the Contract, if provided in the bid.
- 26.4 The Purchaser's evaluation of a bid will take into account, in addition to the bid price (Ex-factory/ex-warehouse/off-the-shelf price of the goods offered from within India, such price to include all costs as well as duties and taxes paid or payable on components and raw material incorporated or to be incorporated in the goods, on the finished goods, if payable) and price of incidental services, the following factors, in the manner and to the extent indicated in ITB Clause 26.5 and in the Technical Specifications:

- (a) Inland Transportation, ex-factory/from port-of-entry, Insurance and Incidentals:
    - (i) Inland transportation, insurance and other incidentals for delivery of goods to the final destination as stated in ITB Clause 11. The above costs will be added to the bid price.
  - (b) Delivery Schedule:
    - (i) The Purchaser requires that the goods under the Invitation for Bid shall be delivered at the time specified in the Schedule of Requirements. The estimated time of arrival of the goods at the project site should be calculated for each bid after allowing for reasonable transportation time. Treating the bid offering the scheduled time of arrival as the base, a delivery "adjustment" will be calculated for other bid at 0.5% of the ex-factory price for each week of part thereof of delay beyond the base and this will be added to the bid price for evaluation. No credit will be given to earlier deliveries and bid offering delivery beyond 60 (sixty days) of stipulated delivery period will be treated as non-responsive.
    - (c) The Special Conditions of Contract stipulate the payment schedule offered by the Purchaser. If a bid deviate the schedule and if such deviation is considered acceptable to the Purchaser, the bid will be evaluated by calculating interest earned for any earlier payments involved in the terms outlined in the bid as compared to those stipulated in this invitation, at a rate of 10 percent per annum.
    - (d) Deleted
