DETAILED TENDER NOTICE

Sealed limited tenders in single bid system are invited from registered contractors of PWD/PHE/Estate office (GAD)/MES/MeECL and equivalent class of CPWD for the following work and will be received at the office of the undersigned upto 1400 hrs **on 29.7.2025** and will be opened on the 30.7.2025 in the presence of the tenderer(s) or their authorized agent(s) at 1430 hrs.

Name of work	Estimated cost (Rs) (approx)	EMD (Rs)
Construction of additional room for gym equipment at the Indoor Stadium	Rs.4,46,220/-	Rs.8,930/-

General Conditions of Contract (GCC):

1. The Tender is a Single Bid System. All technical, commercial documents are to be enclosed in Envelope -1 & only the Price Bid is to be enclosed in Envelope -2.
2. The Tender Reference No. & name of work is to be mentioned clearly on each envelope.
3. The site is located at Mawdiangdiang
4. Time of completion: 4 (four) months from the date of issue of commencement order.
5. EMD to be deposited in the form of FD/Call Deposit to be duly pledged in favour of the Deputy Director (Admn), NEIGRIHMS, Shillong.
6. Contractors shall be deemed to have inspected and examined the site of work and its surroundings before submitting the tenders.
7. Tenderers will have to submit attested copy of their registration.
8. The contractor shall not sub-contract the work to sub-contractors or to any single sub-contractor. An undertaking by the contractor shall have to be submitted to this effect.
9. The successful contractor shall provide a performance security for his proper performance of the contract within 7 (seven) days from the date of receipt of letter of award. The performance Security shall be in the form of FD/Call Deposit to be pledged in favour of Deputy Director (Admn), NEIGRIHMS. In case the Performance Security is in the form of Bank Guarantee the same is to be sent to the Deputy Director (Admn), NEIGRIHMS in sealed envelope directly by the issuing Bank along with the forwarding letter indicating BG No. purposed of the BG, etc. The amount of the security shall be 5 % (five percent) of the contract price. The performance security shall be valid until the contractor has executed and completed the works and remedied any defects therein in accordance with the contract. The Performance security shall be returned to the contractor within 14 days from the expiry of the Defect Liability period. If the contractor fails to perform the work as per terms and conditions of the contract, the performance security shall be forfeited.
10. If during the execution of the work the contractor encounters physical obstructions or physical conditions other than climatic conditions on the site, which obstructions or conditions were in his reasonable opinion not foreseeable by the contractor, the contractor shall forth with give notice thereof to the Executive Engineer (Civil), NEIGRIHMS. On receipt of such notice, the Executive Engineer (Civil) shall, in his opinion feel that such obstructions/conditions could not have been reasonably foreseen by the contractor, after due consultation with the contractor determine any extension of time with no financial bearing to which the contractor is entitled.
11. During the execution of the works, the contractor shall keep the site reasonably free from all unnecessary obstructions and shall store or depose of any contractors equipment and surplus materials and clear from the site any wreckage, rubbish or temporary works in consultation with the Sanitary Supt of the Institute.
12. Before issue of any completion certificate, the contractor shall clear away and remove from that part of the site to which the completion certificate relates all contractors' equipment, surplus material, rubbish and temporary works of every kind.
13. The contractor while employing labour should ensure that all the statutory labour laws and regulations are adhered to.
14. In the event of
 - a. The amount or nature of extra or additional work
 - b. Exceptionally adverse climatic conditions
 - c. Other special circumstances which may occur other than through a default or breach of contract by the contractor or for which he is responsible. Being such as fairly to entitle the contractor to extension of time for completion of the works or any section or part thereof, the Institute shall after due consultation with the contractor and subject to clause 11 determine the amount of such extension with no financial bearing and shall notify the contractor accordingly.

15. If the contractor fails to complete the execution and completion of the works as specified in the work order and if extension of time is granted if any in accordance with clause 10 and 14 of the GCC, the contractor shall be bound to pay as liquidated Damages a sum of 0.5 % (percent) per week of delay for such default subject to a maximum of 5 % of the contract price.
16. When whole of the works have been substantially completed, the contractor shall give a notice to the Executive Engineer (Civil) of the Institute, accompanied by a written undertaking to finish with due expedition any outstanding work during the defect Liability period. Such notice and undertaking shall be deemed to be a request by the contractor to the Executive Engineer (Civil) to issue a taking over certificate.
17. Defect liability period shall be 12 (twelve) months calculated from the date of completion of the works certified by the Executive Engineer (Civil) in the completion certificate.
18. If the contractor fails to fulfill any of the obligations under this contract, the Institute shall be at liberty to terminate the contract thereby voiding the contract and will be at liberty to allot the whole work or balance works to any other party at the risk and cost of the first party.
19. All works are to be carried out as per current specification prevailing in the state of Meghalaya (MPWD & CPWD) and when directed by the Institute.
20. In submitting tender the registered contractor should mention registration number and class with full present address and should submit attested copy of the registration certificate.
21. All the relevant documents required to be submitted along with the tender including the EMD should be submitted in the first envelope marked as **Envelope I** and only the price quoted should be submitted in another envelope marked as **Envelope II (form annexed to these conditions)**
22. The Envelopes should clearly indicate the name of work, name, address and contact number of the contractor. Tenders not submitted in the said format will be rejected.
23. Every page of the tender paper to be signed by the contractor as a token of acceptance of the terms and conditions before submission of tender, failing which the tender will be rejected.
24. **Average Annual Financial Turnover** during the last three years ending 31st March of the previous financial year should be at least **30 % of the estimated cost**. Tenderer to submit Financial Statement from Chartered Accountant as per **FORMAT – B**.
25. Parties should have the experience of having successfully completed similar works during the last 7 (seven) years ending last day of month previous to the one in which applications are invited should be either of the following: (a) **Three similar completed works** costing not less than the amount equal to **40% of the estimated cost** or (b) **Two similar completed works** costing not less than the amount equal to **50 % of the estimated cost** or (c) **one** similar completed **work** costing not less than the amount equal to **80 % of the estimated cost**. Documentary proof in the form of completion certificates only are to be enclosed failing which the tender will be non-responsive.
26. Completion Certificates are to be signed by Officers not below the rank of Executive Engineers.
27. Completion Certificates should indicate the items of works executed along with the date of award of work & time of completion as per work order & actual time of completion **(FORMAT –A)**
28. Running payments can be made to the contractor subject to certification by the Executive Engineer (Civil) after completion of about 50 % of the work and final payment will be paid after completion of the work after due certification and satisfaction of the Executive Engineer (Civil).
29. Parties to submit PAN Card
30. Rates once accepted will not be enhanced due to variation in the rate of materials, labour and Government taxes.
31. No tools and plants will be supplied by the Institute
32. No materials will be supplied by the Institute.
33. Contractors should clearly mention the name of work for which they are quoting for in both the Envelopes.
34. While submitting price bids, contractors should not use correction fluid. Price bids where correction fluid has been used will not be accepted.
35. The quoted rates shall be firm ,fixed and binding on the contractor irrespective of any variation in the quantities stated in the contract upto ± 10 % variation of the contract value as a whole.
36. Successful Non –Tribal tenderers should submit the valid Trading license.
37. **In case of dispute:** It is agreed between the first party and the second party that all disputes, differences and claims whatsoever which shall arise at any time between the parties hereto or their respective representatives concerning this contract and all other documents in pursuance hereof as to the rights, duties, obligations or liabilities of the parties hereto respectively by virtue of this contract shall be referred to Arbitration in accordance with the provisions of the Arbitration and Conciliation Act, 1996 as amended from time to time. Either party may refer the matter of Arbitration to the sole arbitrator to be appointed by the First party .The arbitrator so appointed shall be a neutral third party whose decision shall be binding and accepted by both the parties.
38. The specifications and mode of measurement for civil works shall be in accordance with PWD/CPWD specifications unless otherwise specified and more specifically as per approved Drawing, Specification and Estimate.
39. If there is any excess payment on any item etc made to the contractor, the contractor shall not hesitate to cooperate in adjusting / deducting the same from either the running bills or final bills.

40. The Rates should be quoted by the contractor either AT PAR or ABOVE the Meghalaya PWD Scheduled of Rate for Roads and Bridges 2020 – 21 / Meghalaya PWD (Building) 2021 – 22. Contractors are not allowed to quote BELOW PAR.
41. The Institute reserves the right to accept or reject any or all tenders without assigning any reason thereof
42. All the above requirements are compulsory for fulfillment as part of the tenders failing which tenders will be rejected.
43. All documents, registrations should be valid as on the date of tender.
44. Govt. taxes and duty as applicable will be deducted from the bills of the contractor.
45. Parties to submit the list of technical staff with at least one experienced Junior Engineer-Civil (Diploma). Attested copy of diploma/degree certificates to be enclosed. Undertaking in the form of affidavit to be submitted.
46. The parties to furnish an affidavit on a non-judicial stamp paper that there is no police/vigilance/CBI case pending against them.
47. **Tender documents can be downloaded from the Institute's website www.neigrihms.gov.in**
48. The Party shall be responsible for the safety of all its workmen/employees during the period of execution of the work. The party shall provide all safety materials, gadgets, equipments etc to all its workmen/employees to ensure their safety during execution of the work. The Institute shall not be held responsible in case of any accidents, mishaps etc to the party and its employees
49. Any delay in completion of the works beyond the stipulated date due to reasons attributable to the contractor may eventually lead to cancellation of letter of award for which the contractor is not entitled to any compensation. The cancellation of letter of award would lead to forfeiture of performance security.
50. The contractor is to register with the Labour Department for the work and the registration certificate has to be submitted, failing which the bill cannot be processed
51. If any statutory tax/deduction/recovery is notified by the State/Central Govt, the same shall be deducted from the bill of the contractors as applicable from its effective date of coming into force.
52. **Filling of tender forms inside the Institute's premise is strictly prohibited.**
53. The Payment for the work done by the Contractor will be on the basis of measurement of the work executed. The Contractor or his authorized agent or representative shall be present at the time of recording of each set of measurements and sign on the measurement book as a token of acceptance of the measurement.
54. Bidders should note that the above terms and conditions will apply specifically in addition to the rules / regulations applicable to works in the Government of India.
55. All rules of GFR will be applicable
56. Wherever relevant, water charges @ 1% on the Order value will be applicable
57. Electricity charges when used by the Contractor will be deducted from the bill as per actual usage/consumption through tested meter in consultation with Electrical Department of the Institute.
58. Forest Royalty of stone and sand shall be deducted as per latest rate of Forest Department Government of Meghalaya
59. **Tenders sealed with wax; brown tape; etc only will be accepted. Stapled tenders will be rejected.**

To be submitted in Envelope II

Name of the Work: - Construction of additional room for gym equipment at the Indoor Stadium

Sl No	Description	Unit	Quantity	Rate to be quoted by the contractor AT PAR / ABOVE the MPWD SOR for Roads and Bridges 2020 – 21 / MPWD (Building) 2021 - 22
1	Brick work in cement mortar with first class brick in superstructure above plinth level up to first floor level in all shapes and sizes: a) Cement mortar 1:4 (1 cement:4 coarse sand)	Cum	9.27	
2	15 mm cement plaster on the rough side of single or half brick wall of mix: a) 1:4 (1 cement: 4 fine sand)	Sqm	94.08	
3	Applying one coat of water thinnable cement primer of approved brand and manufacture on surfaces: Water thinnable cement primer	Sqm	94.08	
4	Providing and applying Plaster of Paris putty of 2 mm thickness over plastered surface to prepare the surface even and smooth complete	Sqm	94.08	
5	Wall painting with acrylic emulsion paint of approved brand and manufacture to give an even shade: New work (two or more coats)	Sqm	282.24	
6	Providing and laying vitrified floor tiles in different sizes (thickness to be specified by the manufacturer) with water absorption less than 0.08% and conforming to IS:15622, of approved make, in all colours and shades laid on 20mm thick cement mortar 1:4 (1 cement: 4 coarse sand), jointing with grey cement slurry@ 3.3 kg/sqm including grouting the joints with white cement and matching pigments etc., complete. a) Size of Tile 500x500 mm	Sqm	14.75	
7	Providing and fixing aluminium work for doors, windows, ventilators and partitions with extruded built up standard tubular sections/ appropriate Z sections and other sections of approved make conforming to IS:733 and IS:1285, fixing with dash fasteners of required diameter and size, including necessary filling up the gaps at junctions, i.e. at top, bottom and sides with required EPDM rubber/ neoprene gasket etc. Aluminium sections shall be smooth, rust free, straight, mitred and jointed mechanically wherever required including cleat angle, Aluminium snap beading for glazing/ panelling, C.P. brass/ stainless steel screws, all complete as per architectural drawings and the directions of Engineer-in-charge. (Glazing, and paneling to be paid for separately): a) For fixed portion (i) Anodised aluminium (anodised transparent or dyed to required shade according to IS:1868, Minimum anodic coating of grade AC 15)	Kg	64.47	
8	Providing and fixing aluminium work for doors, windows, ventilators and partitions with extruded built up standard tubular sections/ appropriate Z sections and other sections of approved make conforming to IS:733 and IS:1285, fixing with dash fasteners of required diameter and size, including necessary filling up the gaps at junctions, i.e. at top, bottom and sides with required EPDM rubber/ neoprene gasket etc. Aluminium sections shall be smooth, rust free, straight, mitred and jointed mechanically wherever required including cleat angle, Aluminium snap beading for glazing/ panelling, C.P. brass/ stainless steel screws, all complete as per architectural drawings and the directions of Engineer-in-charge. (Glazing, and panelling to be paid for separately): b) For shutters of doors, windows & ventilators including providing and fixing hinges/ pivots and making provision for fixing of fittings wherever required including the cost of EPDM rubber/ neoprene gasket required (Fittings shall be paid for separately) i) Anodised aluminium (anodised transparent or dyed to required shade according to IS:1868, Minimum anodic coating of grade AC 15)	Kg	42.12	

9	<p>Providing and fixing glazing in aluminium door, window, ventilator shutters and partitions etc. with EPDM rubber/ neoprene gasket etc. complete as per the architectural drawings and the directions of engineer-in-charge:</p> <p>c) With float glass panes of 5 mm thickness (weight not less than 12.50 kg/sqm)</p>	Sqm	6.75	
10	<p>Providing and fixing false ceiling at all height including providing and fixing of frame work made of special sections, power pressed from M.S. sheets and galvanized with zinc coating of 120 gms/sqm (both side inclusive) as per IS:277 and consisting of angle cleats of size 25 mm wide x 1.6 mm thick with flanges of 27 mm and 37mm, at 1200 mm centre to centre, one flange fixed to the ceiling with dash fastener 12.5 mm dia. x 50mm long with 6mm dia. bolts, other flange of cleat fixed to the angle hangers of 25x10x0.50 mm of required length with nuts & bolts of required size and other end of angle hanger fixed with intermediate G.I. channels 45x15x0.9 mm running at the spacing of 1200 mm centre to centre, to the ceiling section 0.5 mm thick bottom wedge of 80 mm with tapered flanges of 26 mm each having lips of 10.5 mm, at 450 mm centre to centre, shall be fixed in a direction perpendicular to G.I. intermediate channel with connecting clips made out of 2.64 mm dia. x 230 mm long G.I. wire at every junction, including fixing perimeter channels 0.5 mm thick 27 mm high having flanges of 20 mm and 30 mm long, the perimeter of ceiling fixed to wall/partition with the help of rawl plugs at 450 mm centre, with 25mm long dry wall screws @ 230 mm interval, including fixing of gypsum board to ceiling section and perimeter channel with the help of dry wall screws of size 3.5x25 mm at 230 mm c/c, including jointing and finishing to a flush finish of tapered and square edges of the board with recommended jointing compound, jointing tapes, finishing with jointing compound in 3 layers covering upto 150 mm on both sides of joint and two coats of primer suitable for board, all as per manufacturer's specification and also including the cost of making openings for light fittings, grills, diffusers, cutouts made with frame of perimeter channels suitably fixed, all complete as per drawings, specification and direction of the Engineer in Charge but excluding the cost of painting with:</p> <p>a) 12.5 mm thick tapered edge gypsum plain board conforming to IS:2095 (Part I) (Board with BIS certification marks)</p> <p>b) 12.5 mm thick tapered edge gypsum moisture resistant board</p> <p>c) Fully Perforated Gypsum Plaster Board of size 1200 x 2400 x12.5 mm having approx. 15% perforated area with perforation size and pattern as approved by the Engineer-in-charge and as per manufacturer's specification, with all 4 side tapered and backed by acoustical tissue with NRC-value not less than 0.60.</p>	Sqm	14.75	
11	<p>Providing and fixing pre-coated galvanised iron profile sheets (size, shape and pitch of corrugation as approved by Engineer-in-charge) 0.50 mm(+0.05 %) total coated thickness with zinc coating 120 grams per sqm as per IS:277, in 240 MPa steel grade, 5-7 microns epoxy primer on both side of the sheet and polyester top coat 15-18 microns. Sheet should have protective guard film of 25 microns minimum to avoid scratches during transportation and should be supplied in single length upto 12 meter or as desired by Engineer-in-charge. The sheet shall be fixed using self-drilling/self-tapping screws of size (5.5x55 mm) with EPDM seal, complete upto any pitch in horizontal/ vertical or curved surfaces, excluding the cost of purlins, rafters and trusses and including cutting to size and shape wherever required</p>	Sqm	26.64	
12	<p>Providing and fixing ISI marked flush door shutters conforming to IS:2202 (Part I) non-decorative type, core of block board construction with frame of 1st class hard wood and well matched commercial 3 ply veneering with vertical grains or cross bands and face veneers on both faces of shutters:</p> <p>a) 35 mm thick including ISI marked Stainless Steel butt hinges with necessary screws</p>	Sqm	2.52	

13	Steel work in built up tubular (round, square or rectangular hollow tubes etc.) trusses etc., including cutting, hoisting, fixing in position and applying a priming coat of approved steel primer, including welding and bolted with special shaped washers etc. complete	Kg	452.134	
14	Reinforced cement concrete work in beams, slabs, roofs having slope up to 15o, landings, balconies, shelves, chajjas, lintels, bands, plain window sills, staircases and spiral stair cases above plinth level up to first floor level, excluding the cost of centering, shuttering, finishing and reinforcement. a) M15 or Prop. 1:2:4 (1 cement: 2 coarse sand: 4 graded stone aggregate 20 mm nominal size)	Cum	0.378	
15	Supplying, fitting and fixing in position reinforcement bars upto 1st floor level, conforming to relevant I.S. Code for R.C.C. work/ R.B. walling including straightening, cleaning, cutting and bending to proper shapes and length as per details, supplying and binding with 20G annealed black wire and placing in position with proper blocks, supports, chairs, spacers etc. complete. (Rates inclusive of all wastage, lapping, hooks, chairs, anchorage etc. and no measurement for the same is required) b) High Yield Strength Deformed bars or Tor Bars	Qntl	0.21	
16	SHUTTERING/ FORMWORK Centering and shuttering including strutting, propping etc. and removal of form for all heights complete and as directed by Engineer in charge. Lintels, beams, plinth beams, girders, bressumers and cantilevers (using steel)	Sqm	2.52
